

## TCM Forklift Part

TCM Forklift Part - In the international trade of material handling, forklifts play a major role for transporting industrial goods. Primarily innovated as industrial vehicles in the 1930s in the U.S., lift trucks gained popularity after World War II during the 1940s. Becoming an efficient and reliable means to material handling solutions, the need and practicality of these machinery spread globally.

First founded as Toyo Carrier Manufacturing Company Limited, in 1949, the company was later renamed Toyo Umpanki Co. previous to becoming known as the TCM Corporation. Founded by Mr. N. Niwa manufactured Japan's very first forklift. Through the years, TCM lift trucks have become an international leader in forklift manufacturing and have built a solid reputation with the trade. TCM began building lift truck manufacturing locations outside of Japan in the 1980s and is currently engaged in forklift manufacturer at three foreign factories in China, the United States and Europe.

TCM proudly makes several models of industrial lift trucks with over 50 years of accumulated technology and expertise, making their products recognized and used all over the world. Characterized by energetic staff and strong initiatives, TCM continues to look toward the future and aspires to become a world-class leading business.
