

Meritor Parts

Meritor Part - The Meritor Business is a leading international dealer founded upon 100 years of tradition of service and quality. Meritor focuses on integrated systems with various modules and parts to the original equipment manufacturers and aftermarket equipment within the industrial and transportation sectors.

Meritor values the wishes of their clients to ensure their success while priding itself in the company's unique energy and thinks this output of energy to be their aggressive advantage in their worldwide operations. Meritor begins with a philosophy which values diversity of people and their broad thought processes. Operating in 19 countries and employing over 11,200 individuals, Meritor promotes collaboration and innovation amongst a team of experienced experts.

Meritor strongly believes in just employing future focused staff. These top-caliber individuals can rapidly adapt to changing environments and freely exhibit the level of performance and commitment considered necessary so as to attain results for the competitive market environment. The business empowers their teams to make sound business decisions so as to improve the overall success of the business. In return, Meritor offers their staff different opportunities for personal and professional development.

Their Advanced Engineering team is at the forefront of components and system engineering which comprise axles, drivelines, braking and suspension systems designed for heavy duty and medium trucks, off-highway vehicles, buses, military vehicles and trailers. The Meritor Advanced Engineering team is developing. They launched a new technical center in Bangalore, India in September 2009 to be able to lead their advanced product development initiatives which represent the whole Asia Pacific region. This team is likewise responsible for supporting the needs of all their international engineering workers.

The Quality team at Meritor is a dynamic and customer-focused group which is committed to ensuring optimum development at their aftermarket distribution facilities and production plant which are located on 5 continents and in 19 nations.

They have their supplier network that is particularly situated to be able to support the growth of the business. Each and every regional team has internationally supported initiatives, quality systems and centralized in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program encourages a fact-based, data-driven approach to decision making in each aspect of the business. The DFSS or Design for Six Sigma ensures product reliability within each region. The team is also comprised of transactional Green Belts who use Six Sigma tools to business techniques and implement lean techniques.
